January 27, 2017

Minister Kenny,

On January 26, 2017, the Anglophone West School District Education Council (ASD-W DEC) held its monthly public meeting at Fredericton High School in Fredericton. Among the items on the agenda that night, and in accordance with our DEC Planning Cycle, were presentations I made regarding the effective use and sustainability of schools in ASD-W. Discussion surrounding schools associated with recommendations from our Ernst & Young Report on the Fredericton Southside Schools and the concept of “trigger schools” ensued.

As a result of the presentation and some conversation among Council that followed, the DEC reached a conclusion, through approval of a formal motion, to conduct a sustainability study on **Kingsclear Consolidated School**.

In accordance with Policy 409, Section 6.4.2, this letter will serve purpose as written notice to you, as Minister, of the DEC’s intent to conduct this sustainability study in the timeline of January 2017 to May 2017.

On behalf of the District Education Council, I wish to assure you that we will follow the process outlined in Policy 409, pertaining to sustainability studies. In doing so, we will ensure quality public consultation and transparent sharing of information.

We plan on writing to you, again, in May 2017, with the results of our study.

Sincerely,

David McTimoney
Superintendent
Anglophone West School District
