

Kasee Moreau- Student (Nackawic Middle School)
Sustainability Study Public Presentation

Good Evening District Education Council. We know that you care about our education here. Your decision will impact us, the students, most of all so we wanted to address you this evening with our thoughts and concerns. My name is Kasee Moreau. I believe that if you close NMS or if you combine with another school you will be making a mistake.

Why? Because not only do the students think that NES, NMS and NHS are great and have a good system going, but also closing the school will lead to many more problems that could have been avoided. It seems to me that if you close or combine the school it will be overcrowded, claustrophobic and noisy all day every day. Now for you that might not be a big deal but for us it is. In such a congested environment how on earth can we pay attention to our teacher or our class? Think about it, is that what you want?

Furthermore our school has a great program with a huge gym, art, tech, cooking, sewing, a games room, and other wonderful creative things. So please don't take that away by making a K-8 school where they might lose an art room, and all the other beautiful creative programs they have.

No one here wants our school to close. So I hope you make the right choice and not close our school.
