

## Mission Statement

To provide a positive learning environment where staff work collaboratively to support individual success, through a student centered program.

---

## The Program Offers:

- A safe, quiet, relaxed environment conducive to learning.
- Staff dedicated to employing a holistic approach to student learning and wellness.
- A supported transition into the world of work or post-secondary education.

# About the Program

## Purpose:

The Enterprise Program is for high school students who may be at risk of withdrawing or who are not currently attending school.

Students are referred to the program by their zoned high school.

Students earn their high school diploma by working individually at their own pace through the required academic credits.

## Schedule:

Enterprise is located in the Fredericton High School building. The Centre follows the same school calendar as ASDW High Schools.

Students attend half-days onsite with full time access to online programming.

## Academics:

The Enterprise Program's curriculum follows the prescribed New Brunswick graduation requirements. Students meet the same curriculum outcomes as those in all provincial high schools.

The program consists of self-paced and self-directed academic programs facilitated by teachers who provide individual instruction and support for students both directly and online.

## Referral Process:

Admission to Enterprise is achieved through a referral process. All referrals are submitted by a member of the Education Support Services Team (ESST) at the student's home school (i.e. school counselor, vice principal).

Upon receipt of a referral, students will be invited to attend an information session.

Referrals are accepted for youth who are registered in an ASDW High School.

## Transportation:

It may be the responsibility of the student to find transportation to and from the Centre.

## Student Responsibilities:

- Complete all academic requirements
- Attend on a daily basis
- Take responsibility for their own learning
- Respect staff, students and themselves

## Graduation:

Upon completion of the program, students will receive either a regular high school diploma from their respective school and a transcript from Enterprise, or an adult high school diploma from Post Secondary Education, Training, and Labour (PETL).

The Enterprise Program is recognized by various colleges and educational institutions throughout the province. Graduates from the Enterprise Program are eligible to apply for post-secondary programs which have an entrance requirement of a high school diploma.

The Enterprise Centre conducts their own graduation ceremony in June.
